

# REFRIGERATED TRAILERS

Mobile refrigeration solutions

**Coldtrailer** is a leading national provider of mobile refrigeration, specialising in the sale of refrigeration and freezer trailers, carcass hanging trailers, exhibition, and vending trailers. Coldtrailer also rents freezer and fridge trailers, for a single weekend up to 12 months, as an ideal refrigeration solution for temporary or emergency storage.

Our customers vary widely from large organizations, wedding venues, hotels and restaurants and fast food outlets, festivals, outside caterers and game shoots, to smaller outfits such as butchers, farmers' markets, farm shops, and even the private individual who wants to keep drinks cold for a summer party. A refrigerated trailer delivers flexibility, convenience and mobility in many situations.

Always here....whether you rent or buy a trailer, Coldtrailer offers a full delivery and collection service, with nationwide 24-hour technical support. And in addition to a full 12 month warranty on all our new trailers, we offer post sales technical support and advice during and after office hours. Coldtrailer is run by Ross and Emma Pushman and prides itself on providing a first-class personal service, regardless of time and distance.

**Customers include:**

- Burger King
- CLA Game Fair
- Duchy Estates
- Glastonbury
- Institute of Cancer Research
- KFC
- McDonalds
- Pizza Hut
- The Big Chill
- Vine House Catering
- Womad

# HUMBAUR COOL TRAILER

The benchmark refrigerated trailer for the UK market

HUMBAUR MODEL	GROSS WEIGHT	INTERNAL DIMENSIONS	PAYLOAD	GROUND CLEARANCE
5330 (HCU1 cooler)	1300 kgs	2510 x 1305 x 1970mm	528 kgs	560mm
5331 (HCU3 cooler)	2500 kgs	3000 x 1755 x 1970mm	1488 kgs	580mm
5332 (HCU3 cooler)	3000 kgs	3000 x 1755 x 1970mm	1960 kgs	580mm
5333 (HCU3 cooler)	2500 kgs	3510 x 1755 x 1970mm	1398 kgs	580mm
5334 (HCU3 cooler)	3000 kgs	3510 x 1755 x 1970mm	1876 kgs	580mm
5335 (HCU3 cooler)	2500 kgs	4015 x 1755 x 1970mm	1308 kgs	580mm
5336 (HCU3 cooler)	3000 kgs	4015 x 1755 x 1970mm	1792 kgs	580mm
5337 (HCU3 cooler)	3500 kgs	4015 x 1755 x 1970mm	2267 kgs	580mm

## Standard Features

- High quality Cibin refrigeration units
- Hot dipped galvanised, long beam Alko chassis with rubber torsion suspension – optimum towing stability
- Up to 12.5 cu m cooling space (refrigeration capacity)
- Four heavy-duty telescopic prop stands located on crossbeams for maximum load weight of 6000kgs
- Temperature control range of +1°C to +8°C, with modern multifunctional display for temperature regulation
- Rear portal made of aluminium profiles – doors can be opened separately
- Powered by 13 amp domestic supply or generator
- Internal light
- Slip resistant, insulated, double wooden floor with aluminium treadplate skirting board
- Aluminium rain deflector over rear door
- Box construction of insulating powder-coated 45mm sandwich material for food safe storage – in white
- Special door locking system with emergency opening from inside
- 14m x 2.5mm cable with 16amp plug and socket, plus 13amp adaptor

## Optional Extras

- Spare wheel and spare wheel holder
- 5KVA Generator fitted on A-Frame
- PVC Thermal Strip Curtain
- Hitchlock
- Wheelclamp
- Carcass Hanging Rail System
- Stainless Steel Carcass Restraint System
- Aluminium Treadplate Floor
- Shelving and racking

*I cannot speak highly enough of the service I have received, particularly the aftercare and advice Ross has offered me. His knowledge of the product is first class, and I would not hesitate to recommend ColdTrails should anyone be interested in buying or hiring their trailers.*

**David Fuller Catering Hire**

# COLDTRAILA MULTICOOL

Freezer/chiller trailer

*Ross and the team at ColdTraila are great. Really helpful, patient and understanding when delivering and setting up the units. Everybody that I've spoken to since have also bought from ColdTraila, so the service obviously works!*

**Rob Jenkins, Buchanan Events**

MODEL	GROSS WEIGHT	INTERNAL DIMENSIONS	TEMPERATURE RANGE
ColdTraila MultiCool 3015	2600 kgs	3000 x 1500 x 2000mm	+10° to -25°C
ColdTraila MultiCool 4015	2600 kgs	4000 x 1500 x 2000mm	+10° to -25°C

## Standard Freezer Trailer Features

- Monoblock refrigeration unit fitted above road spray area
- 100mm steel skinned insulated panels, including insulated floor
- Aluminium anti-slip interior floor finish for easy cleaning and wear resistance
- Smooth interior walls for hygiene compliance
- Silver painted exterior walls
- Heated rear door frame
- Rear drop-down prop stands / optional heavy duty telescopic prop-stands
- Internal 240 volt light and full road lighting
- Single handle door operation with internal panic release
- Fully galvanised steel chassis with independent suspension and braking on all wheels

## Monoblock Freezer Unit

- Zanotti BAS221N single phase refrigeration unit (as standard) or CIBIN ALASKA 240 OBN (optional) mounted on front panel
- Temperature adjustable to - 25° C
- Environmentally friendly refrigeration liquid 'R404A' CFC Free.
- Fully automatic thermostatic control.
- Electronically programmed hot-gas defrosting.
- Mains wiring with earthed plug and cable.
- Cold air blown directly from the unit into the trailer to avoid temperature loss through ducting
- Refrigeration unit mounted above road-spray area.

## Optional Extras

- Spare wheel and spare wheel holder
- 5KVA Generator fitted on A-Frame
- PVC Thermal Strip Curtain
- Hitchlock
- Wheelclamp
- Carcass Hanging Rail System
- Stainless Steel Carcass Restraint System
- Aluminium Treadplate Floor
- Shelving and racking

# COLDTRAILA MULTICOOL RO-RO

Highly mobile modular cold-rooms

This is a complete package of Tilt-Deck Trailer, two Ro-Ro Coldrooms, and a motorised Ro-Ro Mover.

This concept is ideal for situations where more than one coldroom or trailer is required at an event, or where you have a requirement to deliver two coldrooms or trailers to events in the same direction, saving on driver's time and fuel consumption.

There is also a real advantage in step-up height as once positioned the wheel assemblies can be removed from the cold-room, enabling it to be lowered almost to ground-level.

MODEL	INTERNAL DIMENSIONS	CAPACITY
Ro-Ro ColdRoom	2240 x 1940 x 1940mm	8.5 cubic metres

## Standard Features

- Monoblock refrigeration unit with 9 cu m capacity
- 100mm steel skinned insulated panels, including insulated floor
- Aluminium anti-slip interior floor finish for easy cleaning and wear resistance
- Smooth PVC coated interior walls for hygiene compliance
- Aluminium tread-plate external protection
- Internal 240 volt light
- Single handle door operation with internal panic release
- Fully galvanised steel chassis fitted with removable solid rubber, heavy duty transport wheels (in pairs)

## Refrigeration Freezer Unit

- Zanotti BAS123T single phase refrigeration unit (as standard)
- Temperature adjustable between +10°C to -25°C
- Environmentally friendly refrigerant 'R404A' CFC Free
- Fully automatic thermostatic control
- Electronically programmed hot-gas defrosting

- Mains wiring with earthed plug and cable
- Cold air blown directly from the unit into coldroom to avoid temperature loss through ducting

## Tilt-deck Trailer

- 5.66m long x 2.1m wide
- 3500kgs gross weight
- Will carry two Ro-Ro's
- Fully galvanised
- Tri-axle with full width ramp
- Electric winch with 12v battery
- Spare wheel
- Hydraulic hand-pump to tilt-deck

## Ro-Ro Motor Mover

- 24v battery powered tractive device for manoeuvring and positioning Ro-Ro's with handle-bar and variable speed control
- Also Lo-Rise trolley jack to enable the fitting and removing of coldroom wheel assemblies, and also ratchet straps for securing coldrooms onto the Tilt-Deck.
